 - a. Time duration allowed to work is from **7.30am to 6.30pm** keeping in mind the Govt regulation of 7am to 7pm.
 - b. One maid is allowed to work only in one house. He / she cannot work in any other house, else 14 days of cooling off period will be there for the resident as well as that maid.
 - c. For one maid working in one house, he/she may work for any duration of time, for example, from one hour to 11 hours.
 - d. One part-timer maid used to work for multiple houses before, how will she now work only in one house and survive? Perhaps situation today is very different, if one house was employing multiple maids for different chores, and also one maid used to work in multiple houses, then today we may perhaps utilize one maid for different chores in one house. Also not many houses are opting for part time maids, hence there should not be any availability issues for few residents who want help from part time maids.
